## List of CARB Applicants, Qualified Manufacturer and Certified CARB Manufacturers

The following list distinguishes between three groups of mills depending on their application status: Mill Applicants, Qualified Manufacturers, and CARB certified Manufacturers. Please note that factories progress from applicants, to qualified producers to fully certified grademark mills.

### CARB Applicant:

A producer of composite wood products (Hardwood Plywood, MDF, or Particleboard) who applied for CARB certification at PSI. The producer has been accepted into PSI's CARB certification program.

### CARB Qualified Manufacturer:

A qualified producer is a manufacturer of composite wood products that has applied with PSI for CARB certification, passed the initial qualification audit, and successfully tested samples at PSI's laboratory for CARB compliant emission levels. Qualified Producers are **not allowed** to use PSI's grademark and TPC-2 labeling system unless a grademark contract has been executed. Qualified Producers are identified by a qualification letter send to the manufacturer valid for a three month period.

### CARB Certified Manufacturer:

CARB Certified Manufacturers passed the requirements of ATCM 93120 and have obtained an on-going quality assurance - license agreement with PSI. Certified manufacturers have the ability to label their product with PSI's proprietary company logo and grademark label. The grademark program is administered either by PSI directly or one of the following partner organizations:

<b>Grademark Management</b>	<b>PSI - Chaffin and Assoc.</b>	<b>PSI – Sepangar BlueQLabs Inc.</b>	<b>PSI – Outlook Intl Ltd.</b>
Primary Product Type	HWPW, HWPW-VC, HWPW-CC, MDF, PB	Particleboard, HWPW	Particleboard, HWPW
